

NWPTRT013 Operate and Control Liquefied Chlorine Gas Disinfection. For operators who connect and disconnect liquefied chlorine gas containers

According to the updated Australian Standard AS 2927:2019 The storage and handling of liquefied chlorine gas; training and instruction shall be provided to all workers directly involved in the storage or handling of chlorine containers, or the operation or maintenance of chlorine installations.

NWPTRT013 Operate and Control Liquefied Chlorine Gas Disinfection For operators who connect and disconnect liquefied chlorine gas containers.

According to Australian Standard AS 2927 The storage and handling of liquefied chlorine gas; training and instruction shall be provided to all workers directly involved in the storage or handling of chlorine containers, or the operation or maintenance of chlorine installations.

The course is designed for operators with a specific responsibility for disconnecting and connecting liquefied chlorine gas containers who require a nationally recognised qualification.

NWPTRT013 covers the skills required to monitor and operate liquefied chlorine gas disinfection systems and report on process quality control, whilst working safely.

Contents

Course content updated to include recommendations from the new AS 2927:2019
