Training Services

Industry professionals delivering
industry-based training services

About TRILITY Training Services

At TRILITY Training Services, we strive to be more than your typical training provider. Our aim is to be the industry's long-term training provider delivering the highest standards of water sector training.

Our courses are developed in accordance with the National Water Training package and delivered to the Standards of Registered Training Organisations (RTOs) 2015. Our philosophy - of working in true partnership with our clients and students - ensures they can confidently elevate and exceed the standards of compliance on a sustainable, ongoing basis.

We fundamentally believe that our expertise enhances our clients and students' ability to deliver safe, reliable water to the communities in which they serve.

TRILITY has built a student and learning management system designed to streamline a customised learning experience

Our team

TRILITY is trusted and respected in the water management industry. Our trainers have worked across water infrastructure from project and asset commissioning through preventative maintenance, fault finding, and daily water operations.

Our people understand the unique challenges of remote areas and the complexities of urban and edge-of-urban safe water delivery. We teach with practical experience and industry-relevant scenarios.

To find out more about our trainers, visit www.TRILITY.com.au/training

Being trained by TRILITY's Training Services:

- Water operators can be confident that they receive the most up-to-date and relevant training

Have confidence that your TRILITY trainers:

- Are highly skilled and experienced professionals who have worked in the water industry for many years
- Understand the challenges that water industry operators face daily
- Can provide practical advice and guidance

Advance your career to work in the water industry

From entry to supervisory level, TRILITY courses bring you years of water project, asset management and operations expertise.

As a Registered Training Organisation (RTO# 46056), we offer Nationally Recognised Training (NRT) Certificate courses in Water Industry Operations.

NATIONALLY RECOGNISED TRAINING

- **NWP20122 Certificate II** in Water Industry Operations 2 core + 9 electives
- **NPW30222 Certificate III** in Water Industry Operations 2 core + 9 electives
- **NWP40120 Certificate IV** in Water Industry Operations 3 core + 7 electives
- **NWPTRT007** Monitor and operate liquefied chlorine gas disinfection processes

And specialised (non-NRT) courses in:

- **Monitor and Operate Hypochlorite**
- **Disinfection Processes**
- **Monitor and Operate Liquefied Chlorine Gas Disinfection Processes**

So, whether we are teaching new employees or helping your existing team get the qualifications they need, TRILITY can take them through all the relevant processes, compliance requirements and real-life situations.

TRILITY courses are developed in accordance with the National Water Training Package and the Registered Training Organisation Standards 2015.

RPL and credit transfer

TRILITY offers Recognition of Prior Learning (RPL) process in addition to credit transfer of completed, relevant, units of competency attained at other Registered Training Organisations.

If you think you are eligible for RPL or credit transfer, please contact us to discuss your options.

Locations

Each TRILITY training location will be set up with equipment to facilitate the delivery of the relevant qualifications and units of competency.

We offer training in all states, with limited training in Western Australia.

To find your closest training facility and book your training, visit www.TRILITY.com.au/training

Delivery and assessment

Course delivery is face-to-face for technical units and distance delivery for non-technical. Learners will be in a classroom for theory and simulated workplace activities.

Practical training is delivered through a mix of on-site training with a trainer and in your workplace on your own processes under supervision. You will be supported by our trainers and assessors through the practical learning and assessment process.

Our assessments are competency-based working through case studies, field assignments, demonstration of tasks and other assessment tool.

Our on-line learner interface enables submission of photo and video evidence to assist in assessment.

TRILITY Training Services
prides itself on delivering
competence, capability
and capacity
