

Delivering safe water for communities

Relief Operators

Providing qualified and experienced Water, Wastewater and Network Operators to assist while your employees are on leave, at training, or awaiting replacement.

We are here to provide relief

To complement our broad range of services, TRILITY Water Consultancy Services now offer Relief Water and Wastewater Treatment Plant Operators

TRILITY has been a market leader in operating water infrastructure since 1991. Our expertise flows from our team of qualified Operators and Process Engineers whose diverse range of knowledge, skills, and experience makes our people experts in their field. Our capabilities enable us to deliver a broad range of services including reliable potable water supply and compliant treatment of wastewater, 24 hours a day. Our collective expertise as frontline operators allows us to provide relief operations across water, wastewater and networks.

Leveraging our operations and maintenance experience in water supply and wastewater treatment, we deliver support, capability, flexibility and peace of mind. No relief project is too big or too small; we work with you to cater to your specific requirements.

Our services include, but are not limited to:

- Qualified, highly experienced and knowledgeable Water and Wastewater Treatment Operators
- Safely monitor, operate and control treatment operations to maintain compliance
- Recycled water treatment operations support
- Conduct troubleshooting and operational reviews
- Potable water distribution network monitoring and reporting
- Water quality data analysis and reporting
- Disaster/event support for a range of treatment and network operations

Relief Operations are only six steps away
